ALUMINUM DROP BOTTOM

How To Select a Furnace

Uses: These bottom opening quick quench furnaces, are designed for aluminum heat treatment to a maximum temperature of 1200 °F. Temperature gradients are ± 5 °F or less.

Controls: These furnaces come standard with a Model SD, digital LED readout microprocessor programmable control mounted in a separate free standing control cabinet. There is an independent digital high limit safety control and independent contactor and dual door limit safety switches that interrupt power
