ITEM # BT29

Uses: These bottom opening furnaces, are designed for heat treatment at temperatures up to 2250 °F. Temperature gradients are ± 5 °F or better.

Controls: These furnaces come standard with an easy to use digital programmable 4 zone system and a high limit backup system. Mounted in a separate free standing control cabinet. Dual safety switches that interrupt the power to the heating coils when the unit is raised.

Elements: Special PM elements for long life at low and high temperatures. Elements
