ITEM # C36FHWC/PM4

Uses: This large capacity furnace can be used for various types of heat treatment processes which require temperatures up to 2100°F continuous temperature or 2250°F intermittent.

Controls: These furnaces come standard with a digital programmable main control and a digital high limit safety control. Solid state power switching to the heating elements, and dual door limit safety switches that interrupt power to the elements when the door is opened. All wiring is complete and ready to be connected
